

LIQUID LEVEL SWITCHES

RELIABLE, RUGGED SWITCHES FOR INDUSTRIAL LIQUID LEVEL MONITORING WITH EXCEPTIONAL VALUE

EVS SERIES

The extended range of sensors in plastics, brass and stainless steel can have up to 3 floats and up to 1 metre long.

This series of compact sensors in a range of plastics suitable for boiling water and fuels.

VCS SERIES

LCS SERIES

Push fit external mounted sensor, with cable or with integral connector.

This series in a wide range of materials, switching and fitting options. With UL & WRAS Models.

LS SERIES

VS SERIES

With wide range of materials and switching options, also can be internally or externally fitted.

This series has close differential between operate and release, for sensing small change in the liquid level.

LSD SERIES

APPLICATIONS

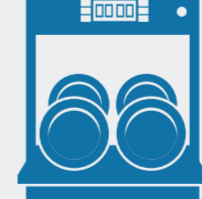

HVAC

- Air Conditioning
- Condensate
- Cooling Towers
- Chiller
- Boilers

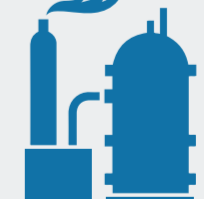

Water and Waste Water

- Water Storage Tanks
- Sewage Tanks Water Purification Systems
- Filtration Systems
- Industrial Carpet Cleaning Machines
- Industrial Floor Scrubber Machines
- Pump Skids

Food and Beverage

- Industrial Dish Washing Machines
- Food Warmers
- Hot Water Heaters
- Steam Cookers
- Storage Silos

Chemical and Petrochemicals (oils)

- Agriculture Fuel Tanks
- Pressure Washer
- Generators
- Lawnmower
- Wind Turbine
- Chemical Application Injectors
- Agriculture Chemical level storage tanks
