                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |              |              |                   |                            |          |     |      |             |    |     |      |   |          |              |    |    |          |   |          |              |    |    |          |   |          |              |    |    |          |   |          |              |    |    |          |   |          |              |    |    |          |   |          |              |    |    |          |   |          |              |    |    |          |   |          |              |    |    |          |   |          |              |    |    |          |    |          |              |    |    |          |    |          |              |    |    |          |    |          |              |    |    |          |    |          |              |    |    |          |    |          |              |    |    |          |    |          |              |    |    |          |    |          | | 7 | 11
