

DESCRIPTION

PRODUCT COVERED:

* Grounding and Bonding Equipment - AMPACT Series Connectors:

Type 275187 with Prefixes 1 through 5 or no prefix and Suffixes 0 through 9;
Type 276337 with Prefixes 1 through 6, or no prefix and Suffixes 0 through 9,
Type 277060 with Suffixes 1 through 5.

GENERAL CHARACTER AND USE:

These devices connect a ground wire to a ground rod, pin or another ground wire. The connection is made by a special tool which uses an explosive shell to wedge together the wire, rod and the two device halves. The tool is pictured in Ill. 3. The wire range of these connectors are given in Ills. 4 through 22.

These connectors are also suitable for direct burial use where connected to rod or pipe-electrodes that are flush with or below ground level per NEC 250-83 (C)-3.
