

DESCRIPTION

PRODUCT COVERED:

Ground Clamp - USL, CNL, Solar Ground Clip Part No. 1954381-1, -2, -3, -4.

GENERAL CHARACTER AND USE:

These clips are intended to provide a connection between a metal enclosure of a Solar Panel and an uninsulated wire as detailed in the Ratings section. The clip is connected to an enclosure with a self-tapping screw or machine screw and nut and the wire is forced into the clip by means of a polymeric body that is assembled to the clip. The Ground Clip is intended to be installed on solar panels that are installed outdoors and therefore, wet locations.

USL - Indicates products have been investigated using requirements contained in the Standard for Grounding and Bonding Equipment, UL467, Ninth Edition.

CNL - Indicates Indicates products have been investigated using requirements contained in the Standard for Grounding and Bonding Equipment, CSA C22.2 No. 41.
