

Introducing White Polyester Chemical Resistant Labels

The white polyester chemical resistant labels are designed to provide clear identification even in the most demanding environments. The chemically resistant matte top coat ensures excellent heat resistance and dimensional stability. The aggressive permanent acrylic adhesive and high tack, high shear characteristics of the WPCR labels can be used in a number of low surface energy applications for rating plates, rack and panel or labelling electronic device and equipment. The labels are abrasion resistant and withstand exposure to commercial and military aviation fluids and solvents.

KEY FEATURES

- Special top coat locks in thermal transfer printing without adding a laminate
- Thermal transfer print on demand
- Excellent dimensional stability at elevated temperatures
- Excellent chemical resistance
- Resists abrasion

APPLICATIONS

- Rating plates, rack & panel
- Bar code labeling
- Electronic device and equipment labeling
- General purpose labeling

MATERIALS

White polyester with a special chemical resistant top coat, pressure sensitive permanent acrylic adhesive

PRODUCT DIMENSIONS

Part Number	Description	Label Width		Label Height	
		mm	inch	mm	inch
