

Aaron Stucki  
President, Transportation Solutions

Aaron Stucki is the President of TE Connectivity's Transportation Solutions Segment, a \$10 billion segment that includes the company's Automotive sector, and the Industrial & Commercial Transportation, Application Tooling, and Sensors business units. In this role as the organization's senior executive, he is responsible for all aspects of the segment's strategy, operations, and overall performance on a global basis.

Since joining TE as the Chief Financial Officer for the company's Consumer Solutions segment in 2011, Aaron has held multiple senior leadership positions including Senior Vice President and General Manager for the Consumer Devices, SubCom, and Industrial and Commercial Transportation business units. Prior to assuming his current position in 2024, Aaron served as the President of TE's Communications Solutions Segment, which included the Appliances and Data and Devices business units.

Prior to TE, Aaron held senior management positions with General Electric, including serving as Chief Financial Officer for GE's Latin America Appliances and High Voltage Relays businesses, and as the Finance Director for the GE Consumer/Industrial EMEA Commercial and Supply Chain organizations.

Aaron attended Vienna's University of Economics in Austria and holds a bachelor's in Economics and International Relations from Brigham Young University, Utah.
