

TOP 4 REASONS TO KEEP APPLICATION TOOLING TOP OF MIND FOR YOUR CAPITAL BUDGETING

When capital budget planning for your upcoming fiscal year and making the best use of current year-end balances, it pays to remember your tooling, equipment and service needs. Here are four big reasons to connect with us now:

1. Get Up to 2% – 5% Off Your Next Purchase of Benchtop Terminators, Connector Seating Equipment or Magnet Wire Equipment*

*Discount offer only valid toward the book price with a minimum purchase of \$50,000 (USD) from October 15, 2020 to December 31, 2020. Benchtop terminators are limited to a maximum 2% discount.

Discount does not apply to orders already placed or contracted, and cannot be combined with any other offers. Service and repair is excluded from this offer. Actual savings will be applied at the time of quote based on the number of eligible machines quoted.

2. Take Advantage of 2020 Pricing

Whether you're making an investment in portable crimp tools, insertion and extraction tooling or larger processing equipment, there's no better time than now to lock in on our 2020 tooling prices.

3. Plan for Volume

As your production volume needs increase, so do your tooling requirements. We offer a broad portfolio from portable crimp tools to semi- and fully-automated termination and board processing equipment, and will work with you to identify the right solution to meet your specific needs.

4. Stay Ahead of the Unexpected

Keeping your equipment in optimum condition is critical to minimizing downtime and quality issues. When buying new equipment, be sure to budget for installation and training costs, which are not included in the purchase price. Combined with our periodic preventative maintenance contracts, you get greater peace of mind.

MAKE AN INVESTMENT IN YOUR PRODUCTIVITY AND QUALITY WITH TE APPLICATION TOOLING

To help get you started, we're offering up to a 2% - 5% discount* toward the book price of select bench top terminators, connector seating equipment and magnet wire equipment with a minimum purchase of \$50,000 (USD) from October 15, 2020 to December 31, 2020.

Benchtop Terminators

TE's extensive line of bench-top wire crimping machines and terminators deliver premium quality manufacturing of crimp connections for low to medium volume wire processing.

Connector Seating Equipment

Our machines process compliant pin connectors and can handle the most demanding applications from daughter cards to mid-planes and back-planes. Our premier compliant pin, solder-free insertion presses offer quicker, more reliable and less operator intensive processing. Fast, simple product presentation with full control and monitoring of force, distance and speed results in higher quality, improved yield and greater cost savings.

Magnet Wire Equipment

TE magnet wire termination machines are designed specifically for terminating magnet wire pigtail splices, thru splices, coils, MAG-MATE products and Crimpband, among others. MAG-MATE and AMPLIVAR splices and terminals are available in a wide range of configurations to meet most magnet wire termination needs—all provide high reliability with minimal wire preparation.
